VENUE

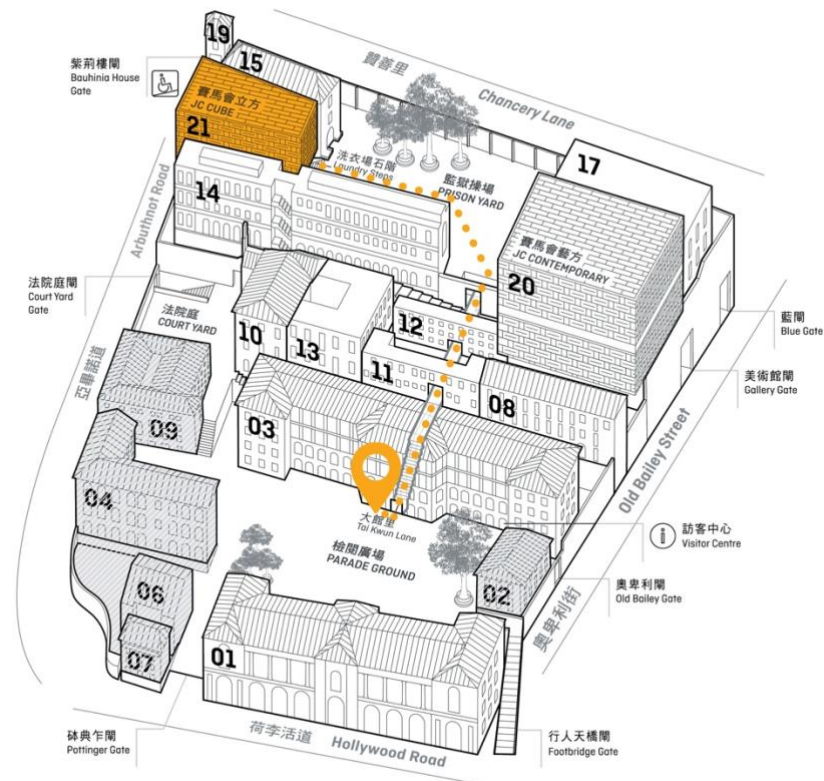

Our 2-day conference (13-14 May) will be held in Tai Kwun, Central, Hong Kong Island (please see compound map to the right, or this website, for more information: https://www.taikwun.hk/en/visit/map_directory).

The main conference venue is **JC Cube** (building 21) for registration and talks. Posters, lunches & coffee breaks will be held in **Lower E Hall** (under building 15) just next to JC Cube.

The closest road-side gate to the compound is **Bauhinia House Gate** (building 19) in the top right-hand corner of the compound, off Arbutnot Road.

The easiest way from the MTR is to take the escalators up from **Hong Kong/Central station** directly into Tai Kwun Parade Ground near the lower end of the compound and walk up through via the staircase.

Please feel free to ask any Tai Kwun staff member for directions if you get lost.
